The results reflect the significant growth that the participants experienced and the effectiveness of our men's ministry for instilling positive change in the lives of men, regardless of their circumstances or stage in life.

Percentage of men who experienced improvement:

Are you feeling angry less often?	<b>85.6%</b>
Are you getting into arguments or fights less often?	<b>85.6%</b>
Are there fewer disciplinary actions against you?	<b>78.8%</b>
Are you feeling more satisfied about who you are?	<b>97.5%</b>

THESE SURVEY RESULTS PROVED TO BE PROGRESSIVE — the longer a man was part of a K21 program, the more positive his survey responses and outlook on life became.
